SUBJECT INDEX

ABORTION, ovine, enzootic, experiments to demonstrate routes of transmission of, 380
Aelurostrongylus abstrusus, the lungworm, changes in the ultrastructure of feline pulmonary arteries following infection with, 181
Adrenal progesterone production in the cow, 300
Anaesthesia, recommended techniques in small animals: an update, 505
Anaesthetic management of major facial trauma in dogs, 169
Antarctic fur seal (*Arctocephalus gazella*), pathology of the, in South Georgia, 210
Anthelmintics for dogs, cats and horses, 361
Anticoccidials clopidol/methylbenzoquate and robenidine, influence of the, on fertility and progeny of female rabbits, 202
Artificial insemination, the timing of, progesterone and oestradiol-17β concentrations and the presence of ovarian follicles in relation to: failure of conception in dairy cattle, 398
Atrophic rhinitis, porcine, a technique for recording lesions in: snout impression prints, 478

BEECHAM mastitis series:
- an approach to the herd mastitis problem, 22
- collection and interpretation of herd mastitis data, 107
- modern aspects of sheep mastitis, 529
- *Streptococcus uberis* udder infection—a major barrier to reducing mastitis incidence, 328
- summer mastitis, 232
- teat skin lesions and mastitis, 430

Birds, the risks and problems connected with the import and export of captive, 317
Blood composition of dairy cows, week-to-week variation in, and its effect on interpretations of metabolic profile tests, 550
Book reviews:
- Agricultural Research Council annual report 1981–82, 92
- British veterinary profession (J. A. Allen), 634
- Calf management and disease notes (A. H. Andrews), 220
- Canine medicine and therapeutics (E. A. Chandler, J. B. Sutton & D. J. Thompson), 634
- Canine terminology (H. R. Spira), 314
- Colour atlas of veterinary anatomy (R. Ashdown & S. Done), 635
- Constitutional disorders and hereditary diseases in domestic animals (D. Hámori), 410
- Current techniques in small animal surgery (M. Joseph Bojrab), 409
- Developments in biological standardization No. 53. Enteric infections in man and animals: standardization of immunological procedures (S. Karger), 410
- Diseases of sheep (R. Jenson & B. L. Swift), 315
- Elements of ethology (D. G. M. Wood-Gush), 519
- Handbook of small animal orthopaedics and fracture treatment (Brinker, Piermattie & Flo), 409
- Latent herpes virus infections in veterinary medicine (G. Wittman, R. M. Gaskell & H. J. R. Zilla), 520
- Microbial diseases of fish (R. J. Roberts), 93
- Perspectives in trypanosomiasis research (J. R. Baker), 92
- Red blood cells of domestic mammals (N. S. Agar & P. G. Board), 220
- Small pets of your own (J. Alcock), 519
- Veterinary medicine (D. C. Blood, O. M. Radostits & J. A. Henderson), 635
- Veterinary pharmacology and toxicology (Y. Ruckebush, P. Louis Toutain & G. D. Koritz), 411

Bovine enterotoxigenic *Escherichia coli*, detection of: a comparative study of a direct fluorescent antibody technique and conventional culturing methods, 44
Brain responsiveness, time to loss of, after exsanguination or cardiac arrest; sheep slaughtering procedures II, 354
Breeding season of sheep, the effect of feeding melatonin during late summer on the onset of the, 407
Brucella suis, taxonomic studies of some atypical strains of, 34

CALCIUM intake, the influence of, on plasma calcium and 1,25-dihydroxycholecalciferol concentrations in parturient cows, 392
Calves, effects of chronic chlorampenicol administration on weight gains and serum cortisol levels in, 437
Camel in health and disease:
- introduction, 482
- 1. a guide to the clinical examination, chemical restraint and medication of the camel, 485
- 2. aspects of the husbandry and management of the genus *Camelus*, 616

Carcasses and viscera, pig, unfit for human consumption, an investigation of the causes and of the financial loss of rejection of, I, studies at one abattoir, 450, II, studies at seven abattoirs, 558
Cardiac arrest, time to loss of brain responsiveness after exsanguination or, sheep slaughtering procedures II, 354
Cardiology, a practitioner's approach to canine, 138
Cats:
- anthelmintics for dogs, horses and, 361
- changes in the ultrastructure of feline pulmonary arteries following infection with the lungworm *Aelurostrongylus abstrusus*, 181
- contraception in the dog and, 132
- obligate anaerobic bacteria found in canine and feline purulent lesions, 257
- risks and problems associated with the importation of dogs, and other mammals, I, rabies, 96, II, 229

Cattle:
- adrenal progesterone production in the cow, 300
- an approach to the herd mastitis problem, 22
- collection and interpretation of herd mastitis data, 107
- comparative study of metabolic profiles obtained in dairy herds in Romania, 600
- concentrations of oestradiol-17β and progesterone in bovine plasma and defatted milk during the post-partum anovulatory period, during oestrous cycles and following ovariectomy, 458
- detection of bovine enterotoxigenic *Escherichia coli*: a comparative study of a direct fluorescent antibody technique and conventional culturing methods, 44

effect of glucocorticoid, insulin and glucose treatment on muscle glycogen content in stressed young bulls, 337
failure of conception in dairy: progesterone and oestradiol-17β concentrations and the presence of ovarian follicles in relation to the timing of artificial insemination, 398
further studies on the variation among cows, bulls and calves in the ability of their blood polymorphonuclear leucocytes to kill *Staphylococcus aureus*, 307
immunological features of consecutive intramammary infections with *Streptococcus agalactiae* in vaccinated and non-vaccinated heifers, 535
influence of calcium intake on plasma calcium and 1,25-dihydroxycholecalciferol concentrations in parturient cows, 392
international cattle trade problems and control of disease, 413
normal serum and colostrum levels of IgG_1, IgM and IgA in indigenous, exotic and crossbred, in Nigeria, 374
pregnancy diagnosis in cows and heifers by determination of oestradiol-17α in faeces, 287
reproductive activity of the cow in the post-partum period, I, factors affecting the length of the post-partum acyclic period, 76, II, endocrine patterns and induction of ovulation, 269
studies on the association of *Escherichia coli* with bovine mastitis, 368
trenbolone levels in tissues of trenbolone acetate-implanted steers: radioimmunoassay determination using different antisera, 592
use of milk progesterone profiles for assessing the response to cloprostenol treatment of non-detected oestrus in dairy cattle, 543
week-to-week variation in blood composition of dairy cows and its effect on interpretations of metabolic profile tests, 550
Chemical restraint, clinical examination and medication of the camel, a guide to the, 485
Chloramphenicol, effects of chronic, administration on weight gains and serum cortisol levels in calves, 437
Clinical examination, chemical restraint and medication of the camel, a guide to the, 485
Colostrum, normal serum and, levels of IgG_1, IgM and IgA in indigenous, exotic and crossbred cattle in Nigeria, 374
Conception, failure of in dairy cattle: progesterone and oestradiol-17β concentrations and the presence of ovarian follicles in relation to the timing of artificial insemination, 398
Contraception in the dog and cat, 132
Cortisol, serum, levels in calves, effects of chronic chloramphenicol administration on weight gains and, 437

DIARRHOEA, persistent, 150
Disease, control of, the international cattle trade problems and, 413
Dogs:
anaesthetic management of major facial trauma in, 169
an approach to canine geriatrics, 115
anthelmintics for cats, horses and, 361
contraception in the, and cat, 132
diagnosis and management of the overweight, 124
induction of ovarian activity in anoestrous beagle bitches, 191
neoplasms in older, with particular reference to management, I, 159, II, 245
obligate anaerobic bacteria found in canine and feline purulent lesions, 257
persistent diarhoea, 150
practitioner's approach to canine cardiology, 138
risks and problems associated with the importation of, cats and other mammals, I, rabies, 96, II, 229
serological survey of *Toxoplasma gondii* in pet, in Nigeria, 207
Drug resistance, a survey of, in salmonellae isolated from animals in England and Wales from 1979 to 1981, 576

EDITORIAL, 95, 244, 521
Enzootic abortion, observations on a skin sensitivity test for ovine, 468
Enzootic abortion, ovine, experiments to demonstrate routes of transmission of, 380
Escherichia coli, detection of bovine enterotoxigenic: a comparative study of a direct fluorescent antibody technique and conventional culturing methods, 44
Escherichia coli, studies on the association of, with bovine mastitis, 368
Exsanguination, time to loss of brain responsiveness after, or cardiac arrest. Sheep slaughtering procedures II, 354

FACIAL trauma, major, anaesthetic management of, in dogs, 169
Fertility, influence of the anticoccidials clopidol/methylbenzoquate and orbenidine on, and progeny of female rabbits, 202

GENITAL infection, persistence of ureaplasma, in naturally-infected ewes, 347
George Fleming prize, 336
Geriatrics, an approach to canine, 115
Glucocorticoid, insulin and glucose treatment, effect of, on muscle glycogen content in stressed young bulls, 337
Glucose, glucocorticoid and insulin treatment, effect of, on muscle glycogen content in stressed young bulls, 337
Goats:
import and export of sheep and, 1
mycobacterial infection in: diagnosis and pathgenicity of the organism, 196

HORSES:
anthelmintics for dogs, cats and, 361
bioassay technique for prostaglandin-like activity in equine inflammatory exudate, 609

IgG_1, IgM and IgA, normal serum and colostrum levels of, in indigenous, exotic and crossbred cattle in Nigeria, 374
Insulin, glucocorticoid and glucose treatment, effect of, on muscle glycogen content in stressed young bulls, 337
International traffic and disease:
exporting and importing pigs: the problems and risks, 523
import and export of sheep and goats, 1
international cattle trade problems and control of disease, 413
risks and problems associated with the import and export of domestic poultry, 221

risks and problems associated with the importation of dogs, cats and other mammals, I, rabies, 96, II, 229
risks and problems connected with the import and export of captive birds, 317

LAMBING performance of Libyan fat-tailed ewes, the influence of prostaglandin analogue and PMS treatment on the, 27
Leucocytes, further studies on the variation among cows, bulls and calves in the ability of their blood polymorphonuclear, to kill *Staphylococcus aureus*, 307
Libyan fat-tailed ewes, the influence of prostaglandin analogue and PMS treatment on the lambing performance of, 27
Lungworm, *Aelurostrongylus abstrusus*, changes in the ultrastructure of feline pulmonary arteries following infection with the, 181

MAMMARY, intra-, immunological features of consecutive, infections with *Streptococcus agalactiae* in vaccinated and non-vaccinated heifers, 535
Mastitis:
an approach to the herd, problem, 22
collection and interpretation of herd, data, 107
incidence, *Streptococcus uberis* udder infection—a major barrier to reducing, 328
modern aspects of sheep, 529
studies on the association of *Escherichia coli* with bovine, 368
summer, 232
teat skin lesions and, 430
Medication, clinical examination and chemical restraint of the camel, a guide to the, 485
Melatonin, the effect of feeding, during late summer on the onset of the breeding season of sheep, 407
Metabolic profiles, a comparative study of, obtained in dairy herds in Romania, 600
Metabolic profile tests, week-to-week variation in blood composition of dairy cows and its effect on interpretations of, 550
Milk progesterone profiles, the use of, for assessing the response to cloprostenol treatment of non-detected oestrus in dairy cattle, 543
Miscellany, 89
Muscle glycogen content in stressed young bulls, effect of glucocorticoid, insulin and glucose treatment on, 337
Mycobacterial infection in goats: diagnosis and pathogenicity of the organism, 196

NEOPLASMS in older dogs with particular reference to management, I, 159, II, 245
Nigeria, normal serum and colostrum levels of IgG_1, IgM and IgA in indigenous, exotic and crossbred cattle in, 374
Nigeria, serological survey of *Toxoplasma gondii* in pet dogs in, 207

OESTRADIOL-17α in faeces, pregnancy diagnosis in cows and heifers by determination of, 287
Oestradiol-17β and progesterone concentrations and the presence of ovarian follicles in relation to the timing of artificial insemination; failure of conception in dairy cattle, 398
Oestradiol-17β and progesterone, concentrations of, in bovine plasma and defatted milk during the post-partum anovulatory period, during oestrous cycles and following ovariectomy, 458
Oestrous cycles, during the post-partum anovulatory period and following ovariectomy, concentrations of oestradiol-17β and progesterone in bovine plasma and defatted milk during, 458
Oestrus, non-detected, in dairy cattle, the use of milk progesterone profiles for assessing the response to cloprostenol treatment of, 543
Ovarian activity, induction of, in anoestrous beagle bitches, 191
Ovarian follicles, the presence of, and progesterone and oestradiol-17β concentrations, in relation to the timing of artificial insemination: failure of conception in dairy cattle, 398
Ovariectomy, following, during the post-partum anovulatory period and during oestrous cycles, concentrations of oestradiol-17β and progesterone in bovine plasma and defatted milk, 458
Overweight, diagnosis and management of the, dog, 124
Ovulation, endocrine patterns and induction of, reproductive activity of the cow in the post-partum period II, 269

PARASITIC worms causing the rejection of Tilapia (*Oreochromis* sp.) in Zaire, 263
Parturient cows, the influence of calcium intake on plasma calcium and 1,25-dihydroxycholecalciferol concentrations in, 392
Pigs:
exporting and importing: the problems and risks, 523
investigation of the causes and of financial loss of rejection of pig carcasses and viscera unfit for human consumption, I, studies at one abattoir, 450, II, studies at seven abattoirs, 558
snout impression prints: a technique for recording lesions in porcine atrophic rhinitis, 478
PMS treatment, the influence of prostaglandin analogue and, on the lambing performance of Libyan fat-tailed ewes, 27
Post-partum anovulatory period, during the, during oestrous cycles and following ovariectomy, concentrations of oestradiol-17β and progesterone in bovine plasma and defatted milk, 458
Post-partum period, reproductive activity of the cow in the, I, factors affecting the length of the post-partum acyclic period, 76, II, endocrine patterns and induction of ovulation, 269
Poultry, the risks and problems associated with the import and export of domestic, 221
Pregnancy diagnosis in cows and heifers by determination of oestradiol-17α in faeces, 287
Professional development series—anaesthesia. Recommended techniques in small animal anaesthesia: and update, 505
Prolactin, plasma, levels of Dorset ewes, effects of shearing on the reproductive activity and, 444
Prostaglandin analogue, the influence of, and PMS treatment on the lambing performance of Libyan fat-tailed ewes, 27
Prostaglandin-like activity, a bioassay technique for, in equine inflammatory exudate, 609
Progesterone:
adrenal, production in the cow, 300
and oestradiol-17β concentrations and the presence of ovarian follicles in relation to the timing of artificial insemination; failure of conception in dairy cattle, 398
and oestradiol-17β, concentrations of, in bovine plasma and defatted milk during the post-

partum anovulatory period, during oestrous cycles and following ovariectomy, 458
milk, the use of, profiles for assessing the response to cloprostenol treatment of non-detected oestrus in dairy cattle, 543
Pulmonary arteries, changes in the ultrastructure of feline, following infection with the lungworm *Aelurostrongylus abstrusus*, 181
Purulent lesions, obligate anaerobic bacteria found in canine and feline, 257

RABBITS, influence of the anticoccidials clopidol/methylbenzoquate and robenidine on fertility and progeny of female, 202
Rabies, the risks and problems associated with the importation of dogs, cats and other mammals, 96
Reproductive activity and plasma prolactin levels of Dorset ewes, effects of shearing on the, 444
Reproductive activity of poll Dorset ewes following shearing in January, 517
Reproductive activity of the cow in the post-partum period, I, factors affecting the length of the post-partum acyclic period, 76, II, endocrine patterns and induction of ovulation, 269
Romania, a comparative study of metabolic profiles obtained in dairy herds in, 600

SALMONELLAE, a survey of drug resistance in, isolated from animals in England and Wales from 1979 to 1981, 576
Salmonella typhimurium, antibody response of turkeys to clinical infection with, 70
Sarcocystis encephalitis in sheep, a suspected case, 64
Serum, normal, and colostrum levels of IgG_1, IgM and IgA in indigenous, exotic and crossbred cattle in Nigeria, 374
Serum protein values from healthy ewes and lambs of various ages determined by agarose gel electrophoresis, 85
Shearing, effects of, on the reproductive activity and plasma prolactin levels of Dorset ewes, 444
Shearing in January, reproductive activity of poll Dorset ewes following, 517
Sheep:
effect of feeding melatonin during later summer on the onset of the breeding season of, 407
effects of shearing on the reproductive activity and plasma prolactin levels of Dorset ewes, 444
epidemiology of ovine toxoplasmosis in relation to possible mechanisms of transmission, 54
experiments to demonstrate routes of transmission of ovine enzootic abortion, 380
import and export of, and goats, 1
influence of prostaglandin analogue and PMS treatment on the lambing performance of Libyan fat-tailed ewes, 27
investigations into the elimination of ureaplasmas from the uro-genital tract of ewes, 292
modern aspects of, mastitis, 529
observations on a skin sensitivity test for ovine enzootic abortion, 468
persistence of ureaplasma genital infection in naturally-infected ewes, 347
reproductive activity of poll Dorset ewes following shearing in January, 517
serum protein values from healthy ewes and lambs of various ages determined by agarose gel electrophoresis, 85
slaughtering procedures, I, survey of abattoir practice, 281, II, time to loss of brain responsiveness after exsanguination or cardiac arrest, 354, III, head-to-back electrical stunning, 570
suspected case of sarcocystis encephalitis in, 64
Skin sensitivity test, observations on a, for ovine enzootic abortion, 468
Slaughtering procedures, sheep:
I, survey of abattoir practices, 281
II, time to loss of brain responsiveness after exsanguination or cardiac arrest, 354
III, head-to-back electrical stunning, 570
South Georgia, pathology of the Antarctic fur seal (*Arctocephalus gazella*) in, 210
Snout impression prints: a technique for recording lesions in porcine atrophic rhinitis, 478
Staphylococcus aureus, further studies on the variation among cows, bulls and calves in the ability of their blood polymorphonuclear leucocytes to kill, 307
Streptococcus agalactiae in vaccinated and non-vaccinated heifers, immunological features of consecutive intramammary infections with, 535
Streptococcus uberis udder infection—a major barrier to reducing mastitis incidence, 328
Stressed young bulls, effect of glucocorticoid, insulin and glucose treatment on muscle glycogen content in, 337

TAXONOMIC studies of some atypical strains of *Brucella suis*, 34
Teat skin lesions and mastitis, 430
Tilapia (*Oreochromis* sp.) in Zaire, parasitic worms causing the rejection of, 263
Toxoplasma gondii in pet dogs in Nigeria, a serological survey of, 207
Toxoplasmosis, the epidemiology of ovine, III, observations on outbreaks of clinical toxoplasmosis in relation to possible mechanisms of transmission, 54
Trenbolone levels in tissues of trenbolone acetate-implanted steers: radioimmunoassay determination using different antisera, 592
Turkeys, antibody response of, to clinical infection with *Salmonella typhimurium*, 70

UREAPLASMA genital infection, persistence of, in naturally-infected ewes, 347
Ureaplasmas, investigations into the elimination of, from the uro-genital tract of ewes, 292

WEIGHT gains, effects of chronic chloramphenicol administration on, and serum cortisol levels in calves, 437

ZAIRE, parasitic worms causing the rejection of Tilapia (*Oreochromis* sp.) in, 263
